## Mollydooker Press Coverage in 2011

### **Mollydooker in Denmark, December 2011**

Check out this review on the 2010 Boxer in Danish! Here is a translated snippet:  
“The Boxer has a significant alcohol percentage of 16.5. Strangely enough it works and the wine doesn’t show especially heavy or alcohol like; rather followed the hard-hitting, wonderful berry flavor and a surprisingly soft finish. It’s shiraz at its best when the grapes have been allowed to mature under optimal conditions. The wine is a small meal in itself - and it could be quite funny at a Christmas dinner, since it will certainly put its mark on the dance about the Christmas tree. On one way or another that I can almost promise you! Christmas or not - we have as mentioned to do with a remarkable beauty – not especially cheap - although there is value for money. It can only mean one thing: We need to stand up, lubricate the vocal chords and sing out Waltzing Matilda - there are top marks to The Boxer 2010 (6/6 wine stoppers) from Mollydooker.” *by Steen H. Rasmussen*
